

Workterra Ben Admin: Closed Loop Payroll

Ensuring your payroll is accurate can be a manual and time-consuming problem – and creates risk for your organization. You need an automated solution with a trusted partner to back you up.

That's where Workterra BenAdmin comes in. Restore confidence in the accuracy of your benefits deductions with our closed loop payroll capability. By giving you an automated way to keep your expected benefits deductions in line with the actual deductions processed each time you run payroll, you can feel confident that there's no leakage in your benefits spend and your employees are protected from unexpected payroll errors.

How closed loop payroll works:

Prevent leakage in employee benefits spend

Improve payroll accuracy & process improvement

Save time spent on manual audits and intervention

Maintain employee confidence & support financial wellbeing
